

Swing Yarder Grapple

The Brightwater Swing Yarder Grapple is engineered specifically for New Zealand Logging conditions. It features a 2.8 metre jaw opening, heavy Bisolly construction and induction hardened pins. The Grapple's Jaw is also shaped to provide excellent log bunching.

Using 7/8" ropes and manganese wear components the Brightwater Swing Yarder Grapple delivers consistent performance and reliability in any New Zealand logging condition.

All Brightwater products are supported with full-service parts and backup.
